

M Navaneeth Krishna

Senior Backend Engineer | ASP.NET Core | IIT Madras (BS Data Science)

navaneethkrishnaindeed@gmail.com

PROFESSIONAL SUMMARY

Senior Backend Engineer specializing in **fintech and accounting systems**. Currently architecting a **Zoho Books-style cloud accounting platform** — complete with P&L, Balance Sheet, Trial Balance, double-entry ledger, invoicing, and multi-tenant business management. 4+ years of experience in ASP.NET Core, Domain-Driven Design, and enterprise architecture. Creator of **ModMon** (ASP.NET project scaffolding CLI) and **MediateX** (MediatR alternative). Deep expertise in accounting domain logic, financial data integrity, and scalable multi-tenant backends.

SKILLS

Backend: ASP.NET Core, C#, Entity Framework Core, MSSQL, PostgreSQL, REST APIs, SignalR, Docker
Architecture: Domain-Driven Design (DDD), Modular Monolith, CQRS, Repository Pattern, Clean Architecture
Infrastructure: Docker, Firebase Auth, Brevo (Email), Background Services, Multi-Tenant Systems
Other: Git, CI/CD, Flutter (Mobile), Data Analysis

OPEN SOURCE & TOOLS

ModMon - ASP.NET Project Scaffolding CLI

- CLI tool generating production-ready ASP.NET Core projects: `modmon init <project-name>`
- Scaffolds DDD folder structure, Docker Compose, database scripts, EF migrations, and dev utilities
- Pre-configured with authentication, background services, logging, and modular monolith patterns

MediateX - Mediator Pattern Library

- MediatR alternative for ASP.NET Core - request handlers, notifications, pipeline behaviors
- Zero dependencies, MIT licensed, battle-tested in production fintech systems

EXPERIENCE

Senior Software Engineer L1

GeekyWolf | Trivandrum, Kerala, India

Jan 2025 - Present

Lead Backend Developer — Cloud Accounting Platform (Zoho Books Alternative)

Financial Reporting & Analytics

- Built real-time **Profit & Loss**, **Balance Sheet**, **Trial Balance**, and **Cash Flow Statement** generation engine
- Implemented **Aged Receivables/Payables** tracking, **Account Reconciliation**, and custom report builder with date-range filters
- Project-wise P&L reports with cost center allocations and billable hours tracking

Double-Entry Accounting Core

- Complete **Chart of Accounts** with hierarchical account types (Assets, Liabilities, Equity, Income, Expenses)
- **Auto-generated journal entries** for every transaction — invoices, bills, payments, credit notes auto-post to ledger
- Manual journal support with multi-line entries, period closing, and opening balance imports

Invoicing, Bills & Documents

- Full invoice lifecycle: create → send → partial payments → credit notes → reconciliation
- Bill management with vendor tracking, due date alerts, and payment matching
- Customizable templates with branding, multi-currency, and tax configurations (GST/VAT)

Multi-Tenant Enterprise Architecture

- **Business** → **Users** → **Roles** permission system with complete data isolation per tenant
- Each business: own chart of accounts, tax rules, invoice sequences, and configurations
- Vendor/Customer portals with transaction history, outstanding balances, and statement generation

Infrastructure & Integrations

- **Email Tray:** Brevo + background service auto-captures incoming invoices/bills from email attachments
- **Real-Time:** SignalR live dashboard, notifications, collaborative editing conflict alerts

- **Import/Export:** Bulk CSV/Excel import (opening balances, contacts), PDF/Excel export
- **Stack:** ASP.NET Core • MSSQL • EF Core • Docker • Firebase Auth • Redis • DDD + Modular Monolith

Sr. Flutter Developer
Ivory Technologies Pvt. Ltd. | Trivandrum, Kerala, India

Feb 2024 - Jan 2025

- Developed enterprise mobile applications with clean architecture patterns
- Integrated REST APIs and implemented offline-first data synchronization

Flutter Developer
Gmagica | Delhi, India

Feb 2023 - Jan 2024

- Built cross-platform mobile applications consuming ASP.NET Core backends

Mobile Apps Engineer (Flutter)
Ykipp (Talrop) | Malappuram — Flutter apps with clean architecture and code review

Aug 2022 - Mar 2023

Junior Project Coordinator
Tegain | Irinjalakuda — Project management and stakeholder coordination

Oct 2021 - Aug 2022

DOMAIN EXPERTISE

Accounting Domain: Double-entry ledger • Auto journal posting • Debit/Credit balancing • Period closing • GAAP-compliant reporting

Architecture: DDD bounded contexts (Ledger, Invoicing, Contacts, Reporting) • Aggregates • Domain Events • CQRS for reports

Data Integrity: ACID transactions on financial mutations • Optimistic concurrency • Audit trails • Soft deletes with history

Performance: Redis-cached report snapshots • Materialized views for P&L • Indexed journal queries • Background report generation

EDUCATION

BS in Data Science and Applications — Indian Institute of Technology Madras

2025 - 2029
